HOULES introduces The Lounge Collection

"Lounge" is a uniquely sophisticated collection that is a melding of clean line metal hardware with the texture of pasamentrie.

Looking for a more traditional feel? Houles also offers many other options including the "Tantulo" collection shown below.

Remember that Houles is a quick ship! Product ships from France within 4 days via FedEx.

Old Biscayne designs

Old Biscayne designs started out as "the iron bed company". They have since grown from just a bed manufacturer to carrying a full line of custom bookcase and wall units, dining tables and chairs, chests and sideboards, occasional tables, and more! They take pride in everything they make, but take special pride in their roots. Each iron bed manufactured by Old Biscayne is handmade by a single artisan, not on an assembly line. When the original piece is finished, it is signed and dated on the bottom of the bed rail. Shown below is a new iron bed for this year along with several of their new wood pieces.

Remember that Old Biscayne is a custom company. They will customize any of their pieces, if possible, and can custom finish an item using any Sherwin Williams paint color.

Many of the fabrics lose their luster in a picture. By seeing and touching the fabrics first hand you can get a better idea of the quality and what type of application for which it can be used.
